Story

Okabe Rintaro -a.k.a. Okarin-is a college student who still suffers from chuunibyou.
He calls himself "Hououin Kyouma," inventing useless gadgets at his college club called the "Future Gadget Laboratory."
One day, Okarin comes across a bloody Makise Kurisu, collapsed on the 8th floor of Radi-Kan. As he hurriedly messages his friend, Hashida Itaru, to tell him about the incident, he suddenly finds himself on Chuo-dori, completely alone.

"At the time, I thought it was a dream. I truly believed that."

Main Characters

<Okabe Rintaro>

Founder of the Future Gadget Laboratory and the game's protagonist. Control Okabe and discover the truth behind the mysteries of the game.

<Shiina Mayuri>

Lab mem No. 002 and Okabe's childhood friend. Her hobby is making cosplay outfits.
She's a bit ditzy and moves at her own pace.

<Hashida Itaru>

Lab mem No. 003 and friends with Okabe since high school. His nickname is "Daru," and he is an expert hacker.

<Makise Kurisu>

The heroine of this game, and a member of an American neurological research team.
For some reason, she is searching for a vacuum tube.

<Amane Suzuha>

Daru's daughter from the future. She is looking for help in order to repair her broken time machine.

*More characters will make appearances in the game.

Talk to the various characters in different locations in order to solve the mysteries of the game.

Reading the Game Screen

Main Screen▼

This screen displays Okabe's current condition.

It will display, in words, the story and conversations with people near him.

Control Okabe to move from place to place in Akihabara.
Enter buildings you find yourself curious about.
*As you progress through the story, the range of travel will expand.

Progressing the Game

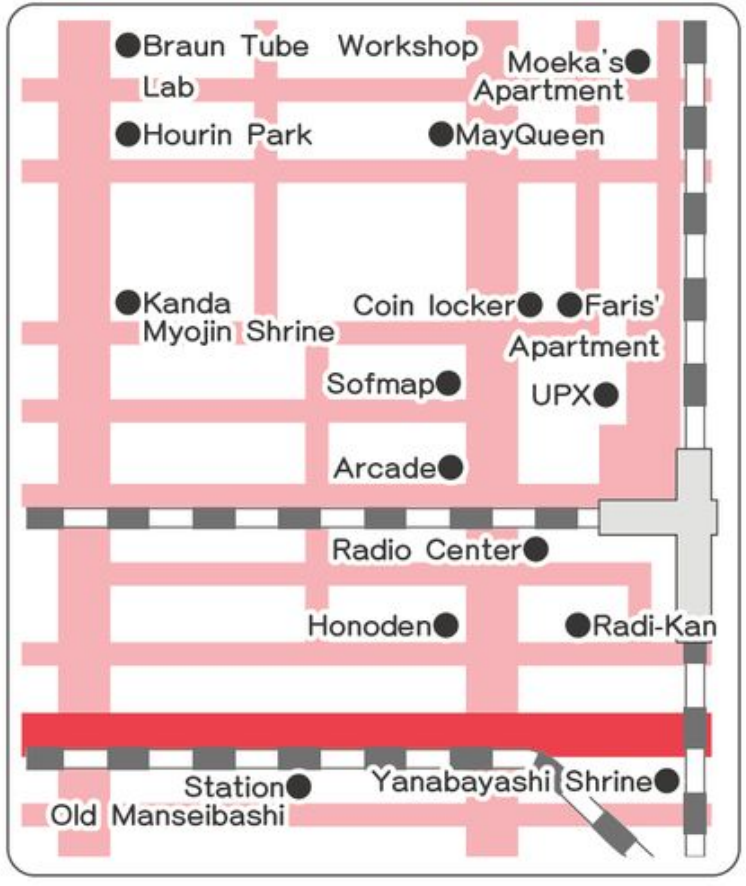
In order to make progress in the game, you will need to talk to various people and investigate your surroundings.

The below "Commands" will display when you can take certain actions. Move the displayed ▶ up and down, and select a command with the Ⓐ button. Once you select the command you will then select a target.

Change Loc.	Move from the current location to a different one.
Talk	Interrogate a person nearby.
Investigate	Investigate your surroundings.
Use	Use an item. This command is also used to call someone on the phone.
Crazy Laugh	Let out a proud "buahahaha!!" regardless of location.

Hints for Clearing the Game.

▼Map of Akihabara



- You will need to talk to many people in order to clear the game.
- When you enter a new scene, try out all the different commands.
- You can "Use" the phone to activate the PhoneWave (name subject to change). If you change the "Past" you might change the "Present" as well.
- Hints can be hidden in unassuming locations. Scour through Akihabara thoroughly.
- There are locations you can enter outside of this map. Try to find them.
